

	Family Name	Given Name	University	Phd Field	Title of the PhD Candidate's Thesis
1	Vasciaveo	Valeria	UNITO	Medicine	Sleep disorders as a risk factor for Alzheimer's disease pathogenesis
2	ANIAGBAOSO	Kingsley	UPPA	Chemistry	Control of the hierarchical self-assembly of ion-containing block copolymer blends for electrochemical energy storage
3	Damian	Mihaela	UNITBV	Philology	Reality Conceptualization in the Translation of Ideological Content
4	Federica	Campolo	UNIBS	Business and Law	Green public procurement: the role of public administration in achieving a circular economy
5	Khastkhodaei Ardakani	Maryam	UNITO	Neurosciences	Rescuing neural cell survival and maturation in a primary autosomal recessive microcephaly-17 (MCPH17) mouse model
6	Andrea	Piccinali	UNIBS	Civil and Environmental Engineering, International cooperation and Mathematics	Study of sustainable solutions for the use of recycled materials in the building sector
7	Simón-Muzás	Ana	UNIZAR	Geology	Application of magnetic susceptibility anisotropy and paleomagnetism to the study of volcanic materials from the Pyrenees. Implications for the evolution of northern Iberia.
8	Aguinaga	Beatriz	UPNA	Law	Conflicts between the right to be forgotten and freedom of expression and information. The balancing test as an instrument for protecting the right to honor, to personal and family privacy and to one's own image, the right to the protection of personal data and freedom of expression and information in the online environment.
9	DI DOMENICO	Hervé	USMB	Science of physical and sports activity	OPEX-FHA: Optimization of the physical condition, cognitive abilities and military health during the first weeks of deployment in OPEX: Fatigue and innovative considerations of coupling training in Hypoxia and pre-Acclimation to Heat
10	Rafaela	Caetano	UBI	Economics	Essays on foreign direct investment, sustainable development and the environment
11	Plugina	Oxana	UPNA	Education	Bilingual programmes: Effects on the reading comprehension level of dyslexic children.
12	Foitoş	Alexandru	UVT	Literature	The Romanian Marginal(ized) Avantgarde: Grigore Cugler, Ionathan X. Uranus, Mada Holda
13	DE SOUSA	Joyce	USMB	Energy	Planning and management of the massive territorial deployment of urban solar energie
14	Modran	Horia	UNITBV	Electronics, telecommunications and informational technologies	Systems based on Artificial Intelligence in Advanced Signal Processing
15	KAZI	Umber	UPPA	Management Science	Management of culture and safety in high risk occupations.
16	Antonieta	Tourais Pinto	UBI	Psychology	Emergency Psychology: Psychological characteristics of intervenors in crisis and catastrophe – Contributions to build an explanatory model of psychological processes in catastrophic situations
17	Rău	Adina Florentina	UVT	Physics	Velocity model optimized for the Banat seismic region, used for the evaluation of local earthquakes
18	Bidooki	Seyed Hesamoddin	UNIZAR	Biochemistry and Molecular Biology	Molecular mechanisms of squalene action on non-alcoholic fatty liver disease using chitosan nanoparticles as drug delivery system
