

Call for applications “ PhD grants ” Edition 2018

Laureates list (by alphabetic order) -
According to the decision of the Board of Trustees, on June 27th, 2018

Candidate	Laboratory	Subject	Thesis Supervisor(s)
Caracciolo Laure	IPREM	Materials for negative electrodes and electrode-electrolyte interface in potassium-ion batteries	H. Martinez
Ibrahimi Njomza	IPRA SIAME	Design, development and test of a new ultra-wide-band bipolar high pulsed power source for civilian and military applications	L. Pecastaing/M. Rivaletto
Khamis Rim	PASSAGES	Governance of adaptation to climate change in medium-sized cities in Europe. A comparative approach.	S. Clarimont/C. Bouisset
Rouxelin Nathan	INRIA	Advanced numerical modelling of acoustic waves propagating below the surface of the Sun	H. Barucq
Sabalot Julia	IPREM	Synthesis of sustainable polymer colloids	M. Save
Sandoval Quintana Eva	IPREM	Environmental integrons: natural genetic vehicles to disperse adaptive genes	C. Cagnon/B. Lauga
Saur Hugo	IPRA LFCR	Matrix deformation in reservoir rocks: the case study of Hecho turbidites	C. Aubourg/P. Moonen

Phd Grants co-funded by the Lebanese CNRS and UPPA			
Candidate	Laboratories	Subject	Thesis Supervisors
Rafik Abdallah	Laboratoire de Génie Civil, SIAME	Study of raw mud brick walls evolution under high temperatures	M. El Goche (Lebanon), C. Laborderie (UPPA)
Noura Hammoud	Laboratoire des analyses inorganiques, IPREM	Fishes' mechanisms of toxins transfer and accumulation after the bloom of cyanobacteria in a lake ecosystem	M. Slim (Lebanon), R. Lobinsky (UPPA)
Mariam Zayter	Laboratoire d'analyses chimiques, IPREM	New challenges for non-specific sifting and the overall future of "emerging" contaminants and their metabolites in the Lebanese marine ecosystem	Mrs Mahfouz (Lebanon), H. Preud'homme (UPPA)

E2S Executive Director,
Gilles Pijaudier-Cabot
